GROUND TRANSPORTATION UPDATE

AUGUST 2010

**AIRPORT OPERATIONS
GROUND TRANSPORTATION SERVICES**
(407) 825-2622 or (407) 825-2666 (After Hours)

Section 6.21 of the Ground Transportation Rules & Regulations restricts the use of vehicle holding areas to only those drivers, operators and permit holders conducting commercial ground transportation business at the Airport. For non-concession operators (excluding taxis), access is limited to those who have pre-arranged passenger information prior to entry onto Airport property.

Security requirements prohibit any unattended vehicle parked in any Commercial Lane space. Vehicles will be cited and towed immediately.

Ground transportation permit holders are reminded that current year operating permits will expire at the end of September 2009. All ground transportation permits will need to be renewed in the next few months.

The Ground Transportation Concourses are available for use only by vehicles-for-hire between the hours of 0800 and midnight. At other times when closed, vehicle-for-hire drivers are to use the Commercial Lanes when picking up passengers, but do not leave a vehicle unattended in a Commercial Lane space. Drivers may use the Commercial Vehicle Parking Areas (CVPAs) to leave their vehicle unattended while in the terminal to locate their passengers. The CVPAs are located just past the entrance and just prior to the Commercial Lane exits. The entry CPVA is shared with taxis.
